*Symposium on Environmental change and human health, held in collaboration with the European Environmental Research Organisation, at the Nol in 't Bosch Hotel, Wageningen, The Netherlands on 1-3 September 1992*

*The topic for this meeting was proposed by Dr David Evered*

*Editors: John V. Lake, Gregory R. Bock (Organizers) and Kate Ackrill*

- A. J. B. Zehnder** Introduction 1
- H. Oeschger** CO<sub>2</sub> and the greenhouse effect: present assessment and perspectives 2  
*Discussion* 17
- M. R. Hoffmann** Chemical pollution of the environment: past, present and future 23  
*Discussion* 31
- A. J. B. Zehnder** River Rhine: from sewer to the spring of life 42  
*Discussion* 58
- R. Rabbinge, H. C. van Latesteijn and J. Goudriaan** Assessing the greenhouse effect in agriculture 62  
*Discussion* 76
- W. P. T. James** Food quality and human nutrition 80  
*Discussion* 92
- F. A. M. de Haan** Soil quality in relation to soil pollution 104  
*Discussion* 118
- R. W. Sutherst** Arthropods as disease vectors in a changing environment 124  
*Discussion* 141

- D. J. Bradley** Human tropical diseases in a changing environment 146  
*Discussion* 162
- J. C. S. Kleinjans, J. M. S. van Maanen and F. J. van Schooten** Human respiratory disease: environmental carcinogens and lung cancer risk 171  
*Discussion* 178
- M. Bobrow** Radiation-induced disease 182  
*Discussion* 192
- D. W. Lincoln** Reproductive health, population growth, economic development and environmental change 197  
*Discussion* 212
- General discussion** 215
- P. Elliott** Global epidemiology 219  
*Discussion* 229
- D. J. Bradley** Environmental and health problems of developing countries 234  
*Discussion* 244
- J. H. Edwards** Evolution and environmental change 247  
*Discussion* 256
- Final general discussion** 260
- A. J. B. Zehnder** Summing-up 264
- Index of contributors 266
- Subject index 267
